

## **In-Kind Donation & Talent Wish List**

This list comprises items we can use to supplement our artifact inventory or for educational demonstration purposes. The list will be updated as necessary.

### **Materials**

We need wood from old farm buildings. If you are thinking of replacing the wood on the sides of your barn with metal sheeting or letting your barn go to ground, we ask that you give us a call.

### **Tools**

We often make use of tools that are either borrowed or not large enough to do the job. We will accept most tools, hand or powered, that you may be looking to donate.

### **Equipment**

It is a farm after all. We have over eighty acres to take care of and we would like to augment our current equipment. We will be glad to talk to you about any piece of equipment.

### **Household Items**

We are always looking for clean, white, 100% cotton sheets for using to protect specific farmhouse museum artifacts.

### **Talents**

We could always use help in what we do. Although our team is talented, it is small. If you are interested, we are currently adding to our volunteer force. Anyone can join and contribute to some great projects. A few examples include carpenter, electrician, engine mechanic, farmer, ecologist, seamstress, chef and gardener. Special committee talents are also welcome, such as accountant, events planner and outreach/marketing.
